## **ANNUAL REPORT FOR 1984 for the Hebron Fire Department**

The report this year finds the department having responded to 38 calls. Surprisingly, mutual aid runs to our neighbors led the number of responses with 12, followed by chimney fires with 10, medical emergencies a close third with 9, two incidents of wires down, two brush or grass fires; one each of a car accident without injuries, a dialer alarm activation, and one structure fire, which went to a first alarm request for mutual aid for us (our only one this year) but the fire was brought under control quickly enough that M.A. was cancelled and returned to quarters.

The low number of structure fires speaks well of public awareness to recognize when woodstoves and/or installations are not functioning properly and to quickly call for assistance from the department. While contained in the chimney, most fires of this type can be controlled and extinguished with a minimal amount of time, damage, and expense of repair to the homeowner.

As to in-town calls, distribution was very equal this year. Ten of the calls were to East Hebron, eight to Hebron, and eight to Groton.

It has been a busy fall for the eight members of the Fast Squad. In September six members, including four new members, took a First Responder course, passing the state board exams on November 8th. Two Squad members are EMTs, one recertifying this fall; the other is taking courses presently to recertify. All members are continuing their training through regional programs offered in Plymouth and Franklin.

The Fire Department saw three promotions this summer. Bill Robertie was promoted to chief engineer. He is doing a fine job keeping the trucks in running order. Tony Albert and Charlie Tatham were promoted to captain after completing the State Certified Firefighter course. Captain Albert is now Fire Inspections Officer, and Captain Tatham is Training Officer for the department, thus easing the load for the Chief.

To comply with OSHA mandates, the department purchased six new helmets to replace some of the old "tin lizzies" which are unsafe. More helmets and bunker coats are going to be needed to meet OSHA standards and adequately protect our firefighters.

Point to ponder: Have you ever wondered how many hours are given up by the firefighters who willingly leave home or job to come to your aid? 293¼ hours this year, which is low compared to some other years' totals.

Respectfully submitted,

## **REPORT OF THE TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER**

Our first forest fire prevention law was enacted by our State Legislature 90 years ago. This early law set in place a cooperative forest fire prevention and suppression effort between city and town governments and State government. It simply stated that no open fire could be kindled, when the ground is free of snow, without the written permission of the town/city Forest Fire Warden. This law also stated that anyone kindling a fire without written permission shall be liable for the damage caused and subject to a \$1,000 fine.

During the past 90 years, this law has worked so well that it has remained unchanged. All open fires when the ground is not covered with snow must be authorized by the local Forest Fire Warden. Persons kindling a fire without a permit when one is required are liable for damages caused, fire suppression costs and subject to a \$1,000 fine.

This cooperative fire prevention law has contributed significantly to our nationally recognized annual forest fire loss record.
